### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jun Lee on 11/04/2004. The application has been amended as follows:

In paragraph 0005, lines 4, delete "compressed hydrogen has high gravimetric density of hydrogen" and insert - compressing hydrogen increases the gravimetric density of hydrogen -.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: A method device for heating at least one hydrogen storage canister to discharge hydrogen having a canister containing chamber with an inner space for accommodating the hydrogen storage canister therein. A catalyst bed, arranged in the inner space of the canister containing chamber having a heating gas inflow end and a heating gas outflow end. A blowing device for providing an air flow into an air flow leading pipe. A nozzle section, which has an inflow end in communication with the air flow leading pipe for conveying the air flow into the nozzle section and an outflow end in communication with a heating gas drawing pipe connecting to the heating gas inflow end of the catalyst bed. A heating fuel storage tank for supplying a heating fuel via a heating fuel supplying pipeline to the nozzle section where the air flow flows through the nozzle section where the heating

fuel in the heating fuel supplying pipeline is sucked into the nozzle section to mix with the air flow forming an atomized heating gas. The atomized heating gas being further supplied into the catalyst bed via the heating gas drawing pipe to generate a hot gas, so that the hydrogen storage canister contained in the canister containing chamber is heated to discharge hydrogen into a hydrogen supplying pipeline.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
